

HEINE visionPRO® VIDEO LARYNGOSCOPE FOR EMS

LATEX FREE

The HEINE visionPRO® video laryngoscope is designed to provide fast, reliable, and high-quality intubation, even in challenging situations. It features an exceptionally bright and sharp image, ensuring the best view of the glottis. With its robust German engineering, the visionPRO is made to last, offering intuitive handling and easy reprocessing to ensure patient safety. Additionally, it is environmentally friendly, featuring a rechargeable battery and blades made from upcycled materials.

Screen clearly displays time left and battery percentage

Screen rotates 225 degrees to reduce glare

allBRIGHT display provides true color and lifelike imaging, even in bright light

Transflective display adapts to even the brightest light source

Extra-large field of view

Removable disposable sheath in 4 configurations

The visionPRO handle, display, and charger come with a 2-year warranty* for manufacturing defects.

MAC 3 Blade
F-000.22.253

HyMac 3 Blade
F-000.22.256

Hyperangulated blade for difficult airways

FEATURES

- The allBRIGHT display provides high-quality images with a bright and sharp video display.
- Durable construction with anodized aluminum and stainless steel components.
- Intuitive handling allows focus on intubation with quick and easy orientation.
- Components can be easily separated for cleaning and are Joint Commission compliant.
- Powered with a long-lasting, eco-friendly, and rechargeable lithium battery.
- Upcycled blades made from recycled refrigerators, significantly reducing CO₂ emissions.
- HEINE SmoothSURFACE makes the reusable handle easy-to-clean with no crevices.
- Components can be hygienically reprocessed, including STERRAD(R) sterilization for the handle.
